

PARTH PATEL

Senior Software Developer · Building with Claude Code

Ahmedabad, Gujarat, India | pp744336@gmail.com | +91 99045 11536 | linkedin.com/in/parthpatel-648102151 | github.com/parth327

SUMMARY

Senior Software Developer with 5+ years building enterprise workflow systems in the .NET ecosystem — contractor allocation, sales automation, and library-platform tooling. Now pairing that experience with Claude Code to take a spec to a running, tested application in a single sitting, with every generated piece reviewed and corrected before it ships.

Also worked with, earlier in my career: Visual Source Safe.

EXPERIENCE

Senior Software Developer

2024 — Present

Chattary Ajwan Infotech Pvt. Ltd. · Ahmedabad

- Building CLIMS and HumanVision — .NET web applications for contractor allocation and workforce tracking at a thermal power station.
- Using Claude Code as part of day-to-day build work — reviewing, testing, and correcting every generated piece before it ships.

Developer

2022 — 2024

Inflibnet Centre · Gandhinagar

- Built the SOUL Sales & Support application and maintained SOUL Web OPAC — sales, support, and library-catalogue tooling for SOUL 3.0, used by university libraries.

Trainee

2021 — 2022

Radixweb · Ahmedabad

- Structured training in .NET Core Web API, Angular, C#, Entity Framework, LINQ, and front-end tooling: HTML, CSS, jQuery, JavaScript, Bootstrap, Git.

PROJECTS

CLIMS — Contractor & Labour Information Management

2025

Digitised how a thermal power station allocates contractors and labourers to work sites — replacing a manual, paper-driven process with a tracked, reportable web workflow.

Tech: .NET 4.5, VB.NET, Crystal Reports, MS SQL Server

SOUL Sales & Support Platform

2023 — 2024

Built the sales-management application for SOUL 3.0, the library-automation software used by university libraries, to run the sales and support process end to end. Also maintained SOUL Web OPAC.

Tech: ASP.NET Core MVC, C#, Entity Framework, LINQ, MS SQL Server

Event Registration & Check-in

2026 · Independent Project

Built a Node.js and PostgreSQL app for registering attendees, generating per-attendee QR codes, and running check-in on the day of the event, with an admin panel and one-click Excel export of attendance data.

Tech: Node.js, PostgreSQL, QR generation, Admin dashboard
